

## NexsysADC™

patent pending

**NexsysADC™**  
by Capsa Healthcare

- DEA compliance
- Increase visibility to inventory levels
- Tighten control of controlled meds
- Reduce waste
- Simplify documentation
- Protect against diversion

### Are you prepared for a DEA audit?

NexsysADC is ideal for medication management, security, and inventory tracking in surgery centers. This simple, secure system fully manages the onsite storage of controls and high-value supply items, but at a fraction of the price of alternative automated cabinets.

Intuitive pick-to-light functionality assures simplicity and accuracy during med administration, especially narcotics

Full-size touchscreen interface and flexible software design support configurable workflows and dispensing protocols

Available in countertop-size for smaller formulary, space and budget constraints

NexsysADC meets the highest standards for cyber security and HIPAA compliance (ISO 27001:2013 Certified)

## Three Secure Ways to Store, Track Meds & High-Value Supplies

**1 Controlled Meds**  
Controlled and high-value medications are safely guarded in CAMs (controlled access modules) with tamper-evident locking lids. CAMs hold up to 25 SKUs (syringe, vial, ampule, oral dose).

**2 Routine Meds & Small Supplies**  
Meds and surgery supplies are efficiently managed in dividable, locked open-matrix bins, with pick-to-light guidance.

**3 Bulk Supplies & Kits**  
Bulk supplies, kits, and larger items are stowed neatly in configurable, locked supply drawers, with pick-to-light guidance.

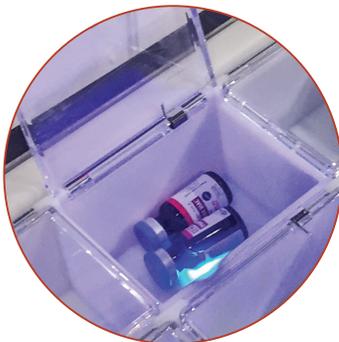

## Adaptable and Scalable Configurations

NexsysADC provides a fully configurable platform to permit unique security and storage capacity for any size and volume surgery center. Consult with Capsa Healthcare on your precise needs.

NexsysADC is scalable for any surgery practice, from the countertop-size NexsysADC 4T to multiple configurations of the main cabinet size.

## Flexible, Secure Storage For Controls And High-Value Items

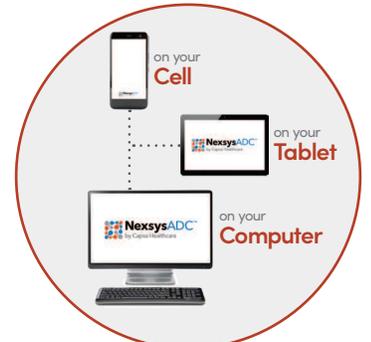

Safeguard syringes, vials, ampules, oral doses, dermal fillers

Advanced security including prox card and biometric authentication

12 CAM configurations to lock up to 25 SKUs, with tamper evidence

Data at your fingertips, 24/7, from any location
