CareLink™

Features

Easier to Move
CareLink provides ergonomic features and workflow solutions that simplify the daily tasks associated with providing patient care.

Electronic Lift
Save personalized preferences, such as seated and standing heights, through a fleet-wide memory system.

Dual-Position Handles
Ergonomically designed handles provide additional user comfort.

Additional Lighting Options
Three lighting options assist with navigating and working in darkened areas without disrupting patients.

Height-Adjustable Rotating Monitor
Adjustable monitor helps ensure proper screen viewing height and allows for screen sharing.

Single Sign-On
Optimize clinical workflows, improve security, and save care providers time with the NEW integration of Imprivata Medical Device Access™ and Imprivata OneSign® with the CareLink Nurse Workstation. The integration enables care providers to quickly and securely access the CareLink workstation, medication drawers and EHR applications with a single tap, and also provides hospital IT with visibility into cart utilization, and centralized management of password and security settings.

- Quickly and securely access workstation and patient information
- Eliminate the need to remember passwords
- Ensure secure access to bins/drawers
- Centrally monitor user access and user tracking

Contact your Capsa Healthcare regional sales manager for more information.

Quick and secure access
N-Sight is a cloud-based system that enables hospital IT to remotely manage and monitor point-of-care carts used by clinicians. N-Sight facilitates improved asset utilization, maximizes fleet performance and value, and helps identify and prevent issues before they impact clinicians.

The N-Sight Difference

- **Robust Cloud Solution**: N-Sight is a cloud based platform with no client software to install
- **Asset Utilization**: Provides multiple analytic points to evaluate asset utilization and manage fleet deployment
- **User Administration**: Enables remote management of cart user groups, user logins, PIN codes, and security settings
- **Configuration Settings**: Centralized management of cart configurations for Displays & Alerts, PIN's, Notifications and Service Requests
- **NEW**: Add N-Sight's remote fleet management to your M38e carts to optimize fleet deployment and maximize cart uptime
N-Sight™

Asset Utilization

N-Sight facilitates asset utilization through optimizing fleet deployment and maximizing the uptime and availability of carts.

Right-Size Your Fleet

- Evaluate utilization patterns and peak needs to determine if the number of carts in meet current clinical demands
- Identify opportunities to redeploy carts to locations with greater needs
- Expert cart fleet utilization reports for further review across service and support teams

Proactive Monitoring

- Proactively monitoring cart fleet power levels and performance
- Provides visibility into power usage and allows adjustments to technology settings to extend cart runtimes

Training and Education

- Monitor cart charging activity and history to identify potential training and education opportunities

Remote Fleet Management

N-Sight saves IT time with managing their cart fleet and the administration of their users.

Intuitive Dashboard

- Illustrates current battery levels sorted and summarizes fleet performance over the past 24 hours
- Monitor fleet status and connectivity, showing carts that have not connected in the last 24 hours
- View cart utilization and identify those that have not been accessed recently

Remote User Management

- Remotely manage and update user IDs, PIN codes, and user permissions
- Monitor cart access and security PIN codes being utilized
Integration With Hospital Systems

To facilitate communication between clinicians, IT, and other hospital departments, N-Sight offers integration with hospital systems that can accept email/SMTP input.

Service requests can be emailed to a specified address, integrating into Help Desk, Housekeeping, or other hospital systems.

Email alerts can be configured to notify the service team when carts have connectivity, battery or utilization issues so they can be quickly resolved.

Pin Code Interface

CareLink PIN Code Interface

An easy-to-use interface that provides better security and more value from fleet management. Users no longer have to enter and remember PIN codes, which promotes faster workflow and leads to improved asset utilization and access monitoring analysis.

- Login and unlock bins or drawers using “Tap and Go” badge readers or proximity sensors, single sign-on or EMR, including scanning patient’s wristband to unlock bin
- Send pin code commands via a special USB cable to login or unlock bins or drawers. Includes optional lock and logout commands, in addition to auto-lock and auto-logout

Active Directory

Active Directory Service for N-Sight

Administer Cart Users directly from Microsoft Active Directory (AD). The simple utility maps attributes from AD to N-Sight providing easier user management, centralized management of security and improved asset utilization analysis.

- Integrates with existing AD processes used when users join and leave the organization
- Utility on AD server manages a service to push updates to N-Sight at defined intervals, such as hourly or daily
SlimCart™

Mobile Documentation Cart

The non-powered, ultra-lightweight SlimCart™ glides easily through tight care settings, providing a flexible, cost-effective solution for mobile documentation. The compact profile and 4” casters allow for simple mobility through doorways, in patient rooms or in hallways. The SlimCart™ provides a generous work surface with a bi-directional slide-out mouse surface and is configurable with your choice of technology.

- Configurable with your choice of laptop, tablet, or lightweight monitor
- Ultra lightweight, starting at just 27 pounds
- 15.35”w x 16.73”d compact profile for maneuvering in tight spaces
- Flexibility to configure with one or two storage drawers

Storage Drawers
Optional single or dual locking removable drawers for efficient and secure storage

Slim Profile
Lightweight, compact size maneuvers easily through tight spaces

SlimCart™

Flexible Configurations

Every facility’s mobile documentation needs are different. That’s why the SlimCart™ is designed to be flexible and easily configured to suit your technology and clinical workflow requirements.

The SlimCart™ mobile documentation cart is designed to accept a wide variety of accessories.

Check with your Capsa Healthcare regional sales manager about these and other accessories specific to your desired solution.

General Specifications

- Starting Weight: 27 lbs
- Height Range: 33.25” to 49.5”
- Adjustment Range: 16.25”
- Footprint (front to rear): 15.35-16.02” W x 16.73” D
- Work Surface - Work Area: 14.52” W x 12.35” D
- Work Surface - Outer Dimensions: 17.28” W x 20.39” D
- Drawer Inner Dimensions: 9.6” W x 8”-10.8” D x 2.7” H
- Casters: 4” (front locking)
- Lift Type: Manual
- Display Max Weight: 8 lbs

Contact your Capsa Sales Representative for more detailed information about the NEW SlimCart™
LX5 Laptop Cart

Designed to accommodate your choice of laptop computers, the LX5 Laptop Cart offers a lightweight and non-powered design that lets you configure the cart to meet your requirements. The LX5 promotes simplicity and value to help lower your total cost of mobilizing health IT software.

- Accommodates widescreen laptops up to 17”
- Ergonomic adjustability is simple with LiftAssist™ height adjustment
- Laptop anti-theft security bridle
- Small footprint, slim profile, and super-lightweight
- Flexibility to configure with storage drawers including 3” or 6” depth

**Wide Screen**
Capable of accommodating widescreen laptops featuring 17" monitor

**Lockable Drawers**
Optional 3” or 6” key lock storage drawers provides secure storage of medications and supplies

**Removable Drawer Tray**
Store small items with drawer trays that can be sub-divided to meet specific storage needs

**Scanner Mount**
The optional scanner holder provides easy access to cordless or tethered scanners for barcode scanning
M40 Computing Cart

With its light-weight construction, compact ergonomic design and large work surface, the non-powered M40 Computing Cart is ideal for mobile electronic documentation needs.

- Integrated keyboard light with auto shut-off feature for nighttime use
- Document cover protects reference documents and notes placed on the work surface
- Oversized 20” wide x 11” deep work surface
- Work Surface has a 16” range of adjustable height
- 19” x 21” compact base for easy maneuvering in patient areas and tight spaces
- Accommodates up to 17” notebook and tablet PCs
- Contoured handles minimize strain when pushing cart
- Handles located in front and back

**Work Surface**
Large work surface with access to power button for easy laptop reboot

**Integrated light**
Keyboard light with auto shut-off feature for use in low light areas

**Mounting Track**
T-track provides a universal mounting point for accessories

**Monitor Mount**
Available with monitor mount and CPU storage
Fluid™ Wall Arms
Wall Mounted Workstation

The Fluid Wall Arms are designed to provide maximum stability, flexibility, and functionality for clinical documentation and patient interaction in any healthcare environment.

The Fluid ULT Wall Arm supports a total weight capacity up to 20 pounds, while the NEW Fluid UHD supports a higher weight capacity up to 35 pounds.

With an unmatched room reach of up to 62°, enhanced fluid, single-handed positioning, and expanded vertical adjustment, the Fluid Arms provide a flexible and comfortable work station that supports either seated or standing interactions.

- Independent monitor and keyboard rotation of 180°
- 22° in vertical arm adjustment with increased lower range supports seated or standing patient interactions
- For maximum extension, configure with an optional extension arm to provide 62° of reach into care environment
- Slim profile under 9.5" when stored to maximize space and function in care environments
- Constructed to allow for mounting onto previously installed industry compatible tracks or supplied 34" track
- Fluid ULT supports 20 pound weight capacity
- New Fluid UHD supports a higher weight capacity of 35 pounds

Easy to Organize
Expansive work surface with left/right mouse surface and enclosed keyboard storage

Maximum Extension
Optional extension arm provides up to 62° of reach that allows closer patient engagement

Easy to Adjust
22° in vertical arm adjustment with 180° independent monitor and keyboard rotation

AX Series Arm
Monitor Arms

The AX Series Monitor Arm lets you select the combination of components to build your ideal health IT workstation. When price and value matter most, the AX Series provides improved ease-of-use and ensures an efficient EHR process at the point-of-care.

- Designed to provide effortless use through a flexible range of motion that supports patient interaction at the bedside
- Independent vertical keyboard adjustment allows variable relationship space between hand position and monitor
- Fully configurable with articulating and optional fixed arm components
- Lightweight aluminum with hardened finish withstands the rigors of your healthcare environment and maintains its attractive appearance over time
- Trim-line profile under 8” when stowed for care settings that demand compact and functional hardware mounting

Efficient physical space requirements keep EHR close at hand without inhibiting clinical workflow or cluttering patient care area.
AX Series Arm

Monitor Arms

General Specifications:
- Standard VESA 75mm, 100mm
- 90° range of articulating arm motion provides 12" of vertical monitor adjustment
- 180° range of lateral motion
- Monitor or keyboard tray tilt in 90° positive or 20° negative direction
- Slim profile under 8" when stowed

Optional Accessories:
- 18" Extender Arm (not available with 16" wall track)
- 20" x 11.5" work surface
- Rotation limiter

Cart Monitor Arms
- Available in rear mount to fit a variety of carts
- Provides a flexible mobility system with ergonomic adjustability
- Selection of laptop trays available including secure and lockable options
The Tandem Arm and Slim Line redefine wall-mounted workstations. With dual arms that move in tandem, the Tandem Arm provides superior stability and range of motion; while the work surface facilitates med preparation and supply accessibility. The Slim Line provides a compact solution for discreet computer access and is easily adjusted for sitting or standing use.

- Dual pivot points on the Tandem Arm maximize rotational range of motion
- Generous 21.5”w x 11”d work surface with spill retaining lip
- Task light with auto shut-off illuminates the work surface for nighttime use
- Position height adjustment facilitates sit to stand interaction
- Locked position height adjustability ensures stability and eliminates movement
- Trim-line profile when stored
Access Pack
Optional Access Pack organizes essential supplies for medication administration including medication cups, medical tape and alcohol wipes

Tandem Specifications
- Generous work surface with spill retaining lip: 21.5"w x 11"d
- Comfort Grip Actuator automatically locks height position for improved stability (premium only)
- Pre-wired USB to Keyboard Drawer (premium only)
- Dual pivot points with 180° rotation
- Shuttle maintains distance from wall during full height adjustment range
- Depth when stowed: Premium - 7.375" Standard - 7.125"
- Integrated tech box CPU storage: 2.6"h x 9.9"w x 10"d 7.1 lbs

Slim Line Specifications
- Generous work surface with spill retaining lip: 21.5"w x 11"d
- Comfort Grip Actuator automatically locks height position for improved stability (premium only)
- Pre-wired USB to Keyboard Drawer (premium only)
- Height Adjustment Brake locks height position and improves stability
- Depth when stowed: 7.375"
- Maximum footprint: 34"h x 25.16"w x 7.375"d
- Monitor adjusts for viewing from multiple directions

Available Finishes:
- Blossom Cherry
- Natural Maple
- Chocolate Pear
- Rustic Cherry
- Espresso
- Solar Oak
The Wall Cabinet Workstation is designed to provide maximum aesthetic flexibility and best-in-class performance. Innovative features, advanced keyless entry system, and exceptional serviceability make the Wall Cabinet the easy choice for demanding clinical environments.

- Special finishes provide an aesthetic look and feel
- Smooth surfaces, including PIN Code Lock membrane, are easy to clean for improved infection control
- Dedicated cable management channels conceal cables
- Auto on/off task light to reduce visual strain and for nighttime use
- Keyboard drawer extension with integrated wrist rest reduces strain
- Slim profile of under 4” when stowed

**Electronic Lift**

Ask your Capsa Representative about ACi cassette transfer carts.
Specialty Carts

CareLink™ Fetal Monitoring Cart

The CareLink™ Fetal Monitoring cart provides both fetal monitoring and a mobile workstation in a single solution. Your choice of medical monitoring system promotes workflow efficiency in labor and delivery departments.

Features
• Dual-swivel monitor mount supports up to 22" monitors
• Stable open shelf supports and secures a variety of Fetal Monitoring systems
• N-Sight™ fleet management for remote asset management
• N-Stride™ steering control for effortless maneuverability and control
• Expansive work surface
• Height adjustable with electronic lift

M38e Phlebotomy Cart

Flexible, mobile Phlebotomy workstation that keeps all of your blood draw supplies close at hand, and enables you to easily transport them throughout the facility. Multiple bin sizes and divider options provide ample storage and smart organization of phlebotomy supplies.

Features
• Large work surface with raised edges and expandable surface feature
• Configurable to meet workflow needs
• Simple electronic height adjustment
• Slim profile for tight care settings and ease of mobility
• Ergonomic adjustments, easy maneuverability
• Increased runtime for improved uptime performance

M38e Registration Cart

Flexible, mobile Registration workstation that enables you to move easily from one patient room to another. The M38e features a large work surface, with a slide out extension for additional work space. Multiple drawer and bin options provide ample storage and smart organization of supplies. Choose from an array of accessories to best accommodate your choice of printers, scanners and electronic signature pads.

Features
• Large work surface with rear utility bins and expandable surface feature
• Configurable with scanner mounts and printer shelves to meet patient registration workflow needs
• Choose from manual or electronic height adjustment
• Slim profile for tight care settings and ease of mobility
Telehealth Carts

M38e Telepresence Cart
The M38e Telepresence Cart is equipped to enable video communication to enhance your telehealth workflow with real-time consultation, connecting doctors with remote patients in real time, increasing access and timeliness to care.

Features
- Optional mounts for video or web camera above the monitor
- Optional I/O Pod for integrating peripherals
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- Large work area with expandable surface feature

CareLink™ Telepresence Cart
The CareLink Telepresence cart is equipped to enable video communication to enhance your workflow with real-time consultations. This innovative telehealth workstation accommodates your choice of video conferencing technology enabling doctors and clinicians to connect with their patients.

Features
- Optional I/O Pod for integrating peripherals
- Optional mounts for video or web camera above the monitor
- Configurable with your choice of video conferencing and audio equipment
- Storage drawer options accommodate telepresence supplies
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management

CareLink™ Telemedicine Cart
The CareLink Telemedicine Cart is designed to enable video communication and the use of diagnostic peripherals facilitating virtual care and timely diagnostics. CareLink connects doctors to remote patients in real time, increasing the access and timeliness to care.

Features
- Offers I/O Pod plug-n-play capabilities to integrate medical peripheral cameras and scopes
- Ventilated storage cabinet for housing PCs or Codecs
- Optional storage drawer for diagnostic peripherals
- Optional mounts for video or web camera above the monitor
- Supports single or dual monitor configurations
- On-board communication tools for messaging and service requests
- N-Sight™ fleet management for remote asset management
CareLink and M38e computer workstations offer configurable storage and organization with an array of drawer and bin options to address specific workflow needs. Storage options are available in electronic locking to keep medications and supplies secure, or non-locking for general storage.

**Drawer Options**

*Flexibility to configure workstation with storage drawers in 3" or 6" depths*

- **3" Drawer**
  - Electronic lock or non-locking

- **2-3" Drawers**
  - Electronic lock or non-locking

- **6" Drawer**
  - Electronic lock or non-locking

**Drawer Dimensions**

3 inch: 3"w x 18.25"h
6 inch: 6"w x 18.25"h
Capsa Healthcare’s computer workstations are designed to accept a wide variety of accessories to customize your workflow and organization.

Check with your Capsa Healthcare regional sales manager about these and more accessories specific to your chosen point-of-care solution.
Warranty Service & Support

Capsa Healthcare products are engineered and tested to perform in a 24/7 clinical environment. However, should you require support for any service issues, Capsa provides a comprehensive service program focused on rapid resolution to keep your cart fleet operational and your clinicians supported.

- Large network of certified field support technicians
- Next business day parts and components replacement
- On-site engineering, installation, and implementation support available
