Simple, Accurate Inventory Counting

Kirby Lester KL1 Counter
Consider how you manage your prescription-filling and your physical inventory counts, especially narcotics. Hand-counting with a tray-and-spatula or half bottle/full bottle estimations put your inventory integrity at risk. Also, hand-counting is laborious and frequently avoided.

Capsa Healthcare provides the best-selling Kirby Lester KL1 counting device. By automating the counting process with this simple device, your staff can effortlessly perform counts more frequently. As a result, your facility will benefit immediately from tighter inventory control, cost savings, and diversion deterrence.

Kirby Lester KL1 Benefits
• KL1 is trusted worldwide in retail pharmacies for its accuracy and speed
• Manual counting is 95% accurate at best
• 14.3 seconds faster (average) than hand-counting for a 90-count
• Counting speed up to 15/second
• Simple: no IT or computer networking, just plug-in and count
• Durable: with regular simple cleaning the KL1 will perform flawlessly for years

Simple Inventory Counting: KL1
14.6”(h) 12.5”(d) 5.6”(w)
Weight 6.9 lb
Count almost any tablet or capsule accurately & quickly.
Eliminate inaccurate, inefficient manual counting.

Superior to Manual Inventory Counting Methods

Common Challenges
Q: Are C-II tablets/capsules hand-counted?
Q: Do you have time to conduct regular, frequent inventory counts?
Q: Is drug theft suspected, but hard to pin down?

Adaptable, Scalable NexsysADC™

Common Challenges
- Are all other automated cabinets too costly?
- Is drug diversion or a DEA audit a concern?
- Do you need to safely store large stock bottles?
- Is storage, access, and tracking an issue?

NexsysADC™ meets the highest standards for cyber security and HIPAA compliance (ISO 27001:2013 Certified)

• Ideal for busy veterinary clinics where tight medication control is required, but small space, budget or formulary are also a consideration. NexsysADC 4T is counter-mounted with the full security and tracking of alternative automated cabinets (ADCs) – yet at a fraction of the price. NexsysADC 4T is the simplest system to manage medication storage of controlled and high-value medication -- individual doses or bulk items.

• At all times, you know inventory levels, who is accessing the cabinet and what is dispensed for a specific patient or procedure. Your clinic will have secure medications, deter drug diversion, gain a fast return on investment, and stay ahead of DEA audit concerns.

• Clean, bright software design and intuitive user interface.

Unique Controlled Access Modules (CAMs) protect controlled and high-value medications. Each 3” CAM holds set to 25 smaller SKUs, and deep 6” and 10” CAMs. Drawers hold up to 12 larger items SKUs, Each cell features individual locking lids, pick-to-light, and tamper evidence.

4T Specifications
• Cabinet size 23.5” (w) 20.4” (d) 17.7” (h)
• Access Modules (CAMs): Controlled and high-value medications are safely guarded in a CAM. Available in 3”, 6” for single doses, and deep 6” and 10” drawn for bulk items.
• Open Cell Medication Bins: Routine meds and non-controlled doses are efficiently managed in available open matrix bins.
• Controlled Access Modules (CAMs): Available in 3”, 6”, or 9” drawers for high-value supplies (for bulk items).
• Also available: 10-tier main cabinet for maximum storage capacity in very large veterinary hospitals.

Adaptable, Scalable NexsysADC™ Configurations

Complete each cabinet’s 4 tiers with a combination of:
• CAMs for controlled & high-value meds
• Dividable-open-cell medication bins for routine meds
• 3”, 6”, or 9” drawn for high-value supplies

Automated Narcotics Storage, Access, & Tracking

Efficient Storage For Specific Procedures & Expensive Supplies

Common Challenges
- Are you using a medical-grade cart for emergency response?
- Are supplies for specific procedures (IV, anesthesia, surgery) organized in designated mobile workstations?
- What year were your existing medical carts purchased? More than 5?

Avalo® Medical Carts
High-level care depends on easy access to the right instruments and supplies when needed. Capsa Healthcare puts everything at your fingertips with a complete line of configurable medical carts. Organize and mobilize all supplies with no compromise to security options, durability, and construction.

Avalo® Emergency Cart
Avalo® Anesthesia Cart
Avalo® Treatment Cart

Medical Carts Benefits
- Avalo emergency/crash carts for fast code response. Unique breakaway locking handle with multiple accessories.
- Avalo anesthesia carts include flexible drawer divider systems, removable drawer trays, and a choice of locking systems.
- Avalo treatment carts are versatile, maneuverable, and flexible for any procedure.
- Multiple heights & drawer configurations
