M40 Computer Carts

User Manual

Elevating performance, every day.
Warnings

⚠️ **IMPORTANT** – Indicates a situation that does not present any hazard but is very important in maintaining a well functioning workstation.

⚠️ **ATTENTION** – Consult manual to avoid a potentially hazardous situation which may result in minor or moderate injury.

💡 **ELECTRICAL** – Indicates an impending electrical hazard which, if not avoided, may result in personal injury, fire and/or death.

- The supplied power cord is rated for medical use. Connecting the cord to an outlet that is not medical grade (indicated with a green dot) will not ensure grounding protection.

- Where the integrity of the external protective earth ground conductor arrangement is in doubt, the equipment shall be operated from its internal electrical power source (battery).

- Power cord, USB extension, and workstation are for indoor use only. **DO NOT** operate outdoors.

- Keep power cord away from water. **DO NOT** plug cord into outlet if wet.

- **DO NOT** operate product if wet. If the work station becomes wet, unplug it immediately, wipe off any excess liquid, and allow it to dry before using again.

- Inspect power cord before integration. **DO NOT** use power cord if damaged.

- Fully insert power cord plug into outlet. **DO NOT** unplug by pulling on cord. **DO NOT** remove, bend or modify any metal prongs or pins of power cord.

- **DO NOT** use excessive force to make mechanical or electrical connections.

- **DO NOT** obstruct the cooling vents.

- **DO NOT** use an electrical extension cord with your workstation.

- **DO NOT** use a flammable cleaner on the station as it can result in fire or explosion.

- **DO NOT** overload the cart. Weight of all customer installed technology not to exceed 30 lbs. (13.6 kg). Weight of monitor not to exceed 15 lbs. (6.8 kg).

- **DO NOT** operate the cart on an incline exceeding 10 degrees.

- **DO NOT** use the cart to power equipment that is not part of the configured cart system.

- **DO NOT** connect equipment that is not mounted on the cart into the power system outlets. The power system is designed for power cart mounted equipment only.

- Equipment not suitable for use in the presence of a flammable anesthetic fixture with with metered oxygen or nitrous oxide.

- Do not adjust lift mechanism until cart has been outfitted with technology. Failure to do so may cause the shuttle and work surface to rise rapidly when actuator is released potentially causing personal injury or damage to the cart.

- To avoid potential electrical shock, **DO NOT** simultaneously touch any cart system components and the patient or any apparatus not connected to the cart system. Electric current may try to flow through you between the system and the other point of contact as it seeks the easiest path to ground.

**STATEMENT OF USE**

The M40 Mobile Computing Cart is designed and manufactured by Capsa Healthcare. Capsa Healthcare’s goal is to elevate your performance by offering innovative solutions that positively impact clinical effectiveness and enhance medication management processes throughout all healthcare environments.

- The M40 Mobile Computer Cart is a mobile computing workstation cart designed for safe use in general patient areas for the purpose of clinical data entry and retrieval as well as medication delivery
- The M40 Mobile Computer Cart is not intended for home use
- The M40 Mobile Computer Cart has no potential electromagnetic or other interference risks when operated according to guidelines covered in this instruction manual

Get Started

INSTALL THE POWER CORD
1. Plug the power cord into the computer cart.
2. Position the bale to secure the power cord.
3. Stow the plug in the holder.

INSTALL THE MONITOR SUPPORT
1. Install the monitor support with four screws as shown. Do not tighten.
2. Install 2 screws as shown. Tighten all 6 screws.
Setup

OPEN THE WORK SURFACE

1. Press the two latches to release the work surface.
2. Pull the work surface forward to expose the locks.

1. Unlock the work surface as shown.
2. Lift the rear of the work surface to expose the storage/laptop tray.
Setup
INSTALL THE KEYBOARD MOUSE AND DATA CABLE

1. Open the keyboard drawer.
2. Place the keyboard in the keyboard drawer.
3. Place the mouse in the mouse holder.

1. Route the keyboard cable to the tech box/laptop tray.
2. Route the mouse cable to the tech box/laptop tray.
3. If you are using a wired network, route a data cable to the tech box/laptop tray.

Note: Use cable ties to secure the cables to the cart for strain relief.
Setup

INSTALL THE LAPTOP POWER SUPPLY

1. Place the power supply in the power supply tray.
2. Fasten the power supply to the tray with cable ties.
3. Route the computer power cable to the laptop tray.

1. Place the power supply in the power supply enclosure.
2. Route the computer power cable to the laptop tray.
3. Plug the power supply into the power strip.

Note: Use cable ties to secure the power cord to the tray for strain relief.

2. Fasten the power supply to the tray with cable ties.
3. Route the computer power cable to the laptop tray.
   Stow the plug as shown.

Laptop Cart With the Power Cord Kit

Laptop Cart Without the Power Cord Kit
Setup

INSTALL THE LAPTOP

1. Place the laptop computer in the laptop tray.
2. Make the necessary cable and electrical connections.

Note: The task light must be plugged into a powered USB port or it will not work. (See your computer documentation for the location of the powered USB ports.)

1. Position the laptop as shown.
2. Lower the work surface.
3. Lock and close the work surface.
Setup

INSTALL THE MONITOR

Cart with LCD & CPU Mounts
1. Mount the monitor to the cart.

Note: Use the mounting screws supplied with the monitor.

2. Route the monitor power to the tech box.

Note: Ensure full movement of the monitor mount! To avoid damage to the monitor connections, verify there is enough cable slack to allow for full rotation of the mount and that accessories do not interfere with the range of motion.

INSTALL THE CPU

1. Press the two latches to release the tech box door.

2. Lower the door.
Setup

INSTALL THE CPU

1. Place the CPU in the tech box.
2. Make the necessary electrical and cable connections.
3. Close and lock the security door.
4. Close the tech box door.
5. Lock and close the work surface.

**Note:** Install CPU with the power button accessible from the top.

**Note:** The task light must be plugged into a powered USB port or it will not work. (See your computer documentation for the location of the powered USB ports.)
Operation

OPERATING PROCEDURE

1. Move the Cart into position.
2. Lock the casters.
3. Adjust the height of the work surface.
4. Plug in the power cord. Plug in the network cable if you are using a wired network.
5. Start the computer.
6. Extend the keyboard drawer and the mousing surface.

CASTERS

To operate braking casters:
1. Lower the tab with your toe to lock a caster.
2. Lift the tab with your toe to unlock a caster.

To operate tracking casters:
1. Lower the tab with your toe to engage tracking feature.
   Note: When the tab is lowered, the tracking caster will align to the nearest angle position.
2. Lift the tab with your toe to disengage the tracking feature.
Operation

HEIGHT ADJUSTMENT

1. Hold the work surface steady and lift up and hold the height adjustment handle.
2. Raise or lower the work surface, then release the handle.

TASK LIGHT

1. Press the button to turn the task light on.
2. Press the button again to turn the task light off.
3. The task light will automatically turn off after 3 minutes.

**Note:** The task light must be plugged into a powered USB port or it will not work. (See your computer documentation for the location of the powered USB ports.)
Operation

1. Press the two latches to release the work surface.
2. Pull the work surface forward to expose the laptop computer power switch and work surface locks.

Note: If the laptop power switch is inaccessible, you will have to unlock and open the work surface.

1. Unlock the work surface locks as shown.
2. Lift the rear of the work surface to expose the Storage/Laptop Tray.
Operation

TECH BOX

Open the Tech Box
1. Press the two latches to release the tech box door.
2. Lower the door.

Close the Tech Box
Raise the door until it is latched on both sides.

Maintenance

△ DO NOT use the computer cart if pieces are missing or the unit is damaged. In these cases, immediately contact Capsa Healthcare Customer Service for more information at: 1.800.437.6633.

Cables: Always keep the cables neatly organized and be sure to route the cables away from moving components with wire ties or cable clips.

Electric Cables: Periodically inspect the power cord and the plug to ensure the plug is not bent and the cable is not frayed.
# Preventative Maintenance

**INSPECTION CHECKLIST**

To protect optimal performance, Capsa Healthcare recommends a periodic inspection and preventative maintenance of your computing cart fleet. These simple steps can safeguard against breakdowns and help you realize uninterrupted workflow and cart availability.

Service

SERVICE REQUEST

Please visit our website at: www.capsahealthcare.com/request-service to file a request for parts.

SERVICE LEVEL COMMITMENT

Capsa Healthcare is committed to providing best-in-class service. This document details our standard warranty and instructions on how to request service using our customer support system.
CAUTION: Due to the close proximity of electrical power and equipment, flammable cleaners should never be used on the cart!

- Verify that your cart is unplugged from the wall outlet before cleaning
- Allow your cart to dry completely before plugging the power cord into a wall outlet
- When cleaning the cart, wipe off the surface with a damp cloth and thoroughly dry
- Never immerse the cart or its components in liquid or allow liquids to flow into the cart
- Never use steel wool or other abrasive materials as these could damage the surface finish
- Before using any cleaner on the cart, first test it on a small area to ensure that the surface is not harmed
- These guidelines cannot guarantee infection control. The hospital’s Infection Control Administrator should be consulted for cleaning procedures and processes.

RECOMMENDATIONS

- Clean plastic components with diluted, non-abrasive solutions. Suggested cleaners are: water, soap, diluted bleach and alcohol solutions.
- Remove pen and dry erase marker stains with a soft cloth and 91% isopropyl alcohol
- Remove iodine stains with a soft cloth and any of the cleaners suggested above
- DO NOT use the following chemicals to clean your cart: acetone, mineral spirits, abrasive cleansers, paint thinner or any other harsh or toxic chemicals

CLEANING OF HIGH TOUCH POINT ITEMS

1. The work surface is fully removable to facilitate cleaning.
2. The document protector is removable (pull up on the back corners). To refasten, press the nylon fastener into the hole in the work surface. This is a replaceable item.
3. The back handle is fully removable.
4. Rear bins can be removed by grabbing the outside edge of the bin and lifting up.
5. The keyboard tray and mouse pads are composed of melamine resin and are easy to wipe down.
Transport/Storage/Disposal

TRANSPORT/STORAGE

Care should be taken to transport and store this system within a temperature range of 32°F to 90°F (0°C to 32°C); Humidity 20% RH to 95% RH non-condensing.

CART DISPOSAL

Dispose of this cart according to local guidelines and regulations for disposal of electronic equipment. For more information contact Capsa Healthcare Customer Service at: 1-800-437-6633.

Standards Compliance

TEST COMPLIANCE:

NRTL

• UL 60601-1:2003
• CAN/CSA-C22.2 No.601.1-M90
• IEC 60601-1/A2:1995
• EN 60602-1/A2:1995

FCC

PART 15, Subpart B, Class A – Unintentional Radiators

PRODUCT CLASSIFICATION:

• Class 1/ Internally powered device with no applied parts
• This equipment is designed for continuous operation
• Class A, Group 1 ISM Equipment
• This device is classified IPX0 for water ingress
• Input 120 Vac, 60 Hz, 5.1 Amp North America
• Input 230 Vac, 50 Hz, 2.5 A International Models
Capsa Healthcare (CHC) is pleased to offer a three-year warranty on parts.
If during the warranty period this CHC product proves defective in materials or workmanship under normal use by the original purchaser, please contact CHC technical support at www.capsahealthcare.com/service (please be sure to complete all information, including product serial number, description of the issue, and full contact information). CHC will determine, at its sole discretion, how to best address your warranty issue, which may include sending you a replacement part covered under warranty or for sale. CHC reserves the right to require proof-of-purchase prior to honoring any warranty request. This warranty does not cover product abuse, modification, failure to adhere to product instructions, or improper operation/misuse. CHC SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES WHATSOEVER. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state or country to country.

SERVICE DETAILS
Consumable components are not covered under warranty and include:

- Locks and keys
- Document cover

Other standard components will be replaced under the applicable warranty following a filed service request.

*The above terms for replacement parts applies to facilities located in the United States. All other customers should contact the appropriate reseller for the terms of part replacement. All terms are subject to change without notice.
