Common Challenges

Q: Are C-II tablets/capsules hand-counted?
Q: Do you have time to conduct regular, frequent inventory counts?
Q: Is drug theft suspected, but hard to pin down?
Q: Is a laptop or tablet hand-carried between exam rooms?
Q: Do you need to transport computer, supplies, and meds at the same time?
Q: Are your wall computer arms bulky or do they interfere with patient care?
Q: Do you need a mobile telehealth solution for patient-to-outside communication?

Kirby Lester KL1 Counter

Consider how you manage your prescription-filling and your physical inventory counts, especially narcotics. Hand-counting with a tray-and-spatula or half full/half full bottle estimations put your inventory integrity at risk. Automation and-counting is favorable and frequently recommended.

Capsa Healthcare provides the best-selling Kirby Lester KL1 counting device. By automating the counting process with this simple device, your staff can effectively perform counts more frequently. As a result, your facility will benefit immediately from tighter inventory control, cost savings, and diversion deterrence.

Kirby Lester KL1 Benefits

• KL1 is trusted worldwide in retail pharmacies for its accuracy and speed
• Manual counting is 95% accurate at best
• 4.3 seconds faster (average) than hand-counting for a 90-count
• Counting speed up to 15/second
• Simple: No I.T. or computer networking; just plug in and count
• Durable: With regular simple cleaning the KL1 will perform flawlessly for years

Superior to Manual Inventory Counting Method

Cost-effective counting to capitalize accurately & quickly

Common Challenges

Q: Is a laptop or tablet hand-carried between exam rooms?
Q: Do you need to transport computer, supplies, and medications at the same time?
Q: Are your wall computer arms bulky or do they interfere with patient care?
Q: Are you using a mobile telehealth solution for patient-to-outside communication?

Documentation Workstations & Tablet Carts

Capsa Healthcare provides a wide range of mobile computing carts, tablet and monitor carts, and wall workstations. Capsa’s solutions facilitate clinical documentation, virtual care and improve patient experience in any healthcare facility.

Capsa’s mobile computing carts and tablet carts are simple, lightweight, and compact for crowded care settings, and accommodate laptops, tablets or all-in-one computers. Choose non-powered or powered, and a large number of convenient accessories.

Capsa’s wall-mount computing solutions are slim profile and stow away neatly when not in use. Their flexible range of motion supports close patient care.

Contact Capsa Healthcare for solutions to manage medications, supplies, and EHR/EMR.
