

KL1Plus - Important Notice

Upgrade to the new Aura Platform (Windows 10 Users)

Your KL1Plus is already an indispensable part of your pharmacy's Rx filling and inventory management. Now, tap into its full potential by upgrading to the new Aura platform. Here is what is included in this full refresh of your trusted KL1Plus.

Upgrade Features:

- Migration to the new Aura platform
 - Simplified real-time drug image updates
 - Enhanced user experience: intuitive prompts and fewer steps to fully utilize all workflow tools
 - New graphic user interface with a fresh look
 - Streamlined training that makes everyday usage more efficient
 - OTA (over-the-air) software updates to keep your KL1Plus at peak performance
- 12-step comprehensive inspection
 - Interior & exterior cleaning
 - Repair any components
 - Extensive accuracy testing and complete diagnostics
- Additional extended warranty discounts available

What is Involved:

- You will send your KL1Plus to Capsa Healthcare's Canal Winchester, OH tech facility.
- Capsa Healthcare offers a loaner KL1Plus program (fees apply).
- Your KL1Plus will be upgraded, QC'd, cleaned, and thoroughly tested, in an expedited process.
- Your pharmacy's historical & archived data will be transferred safely during the Aura upgrade.

Upgrade today to the KL1Plus with Aura, part of Capsa's Kirby Lester lineup of pharmacy automation

Ready to Upgrade?
