# Streamlined Counting Plus Verification

# KL1*Plus*
## Featuring the Aura™ Platform

With the KL1Plus, your patients receive the right medication, strength, and quantity every time.

**Assurance against Rx filling errors for all medications. Now on the new Aura platform for enhanced efficiency.**

- Bar code scanning provides verification for all dispensed medications (tablets, capsules and unit of use). KL1Plus software alerts the technician to a mismatch.
- Orders are verified and filled in less time than traditional hand-counting
- Accurate technician filling saves valuable pharmacist time.
- Superior counting method for 90-day fills.
- Filled orders can be retrieved quickly to validate quantity and time of each dispense.
- Replace your manual C–II log
- Interfaces with your pharmacy management system

**100%** **Verify 100% of your pharmacy's scripts.**

**KirbyLester**
Automation by Capsa Healthcare

---

# Filling accurate orders is simple

## Step 1: Connect it

## Step 2: Verify it

## Step 3: Count it

## Step 4: Prove it

Interfaced or stand-alone, start by scanning the patient's Rx label.

Scan the matching stock bottle (or unit-of-use item). KL1Plus alerts you to a match or mismatch.

Pour the exact amount of tablets/capsules through.

An Rx Archive can be retrieved up to 10 years ago.

## KL1Plus Highlights

Narcotics double-count and stock bottle back-count.

User login and tracking: Track who filled each script.

Multiple inventory functions.

Partial fill order management.

DSCSA: The KL1Plus helps your pharmacy stay DSCSA compliant with 2D barcode scanning.

## New Aura Operating Platform

Enhanced user interface with intuitive prompts.

Real-time drug image update process.

Streamlined training & usage for 3 levels of users (tech, pharmacist, admin).

OTA (over-the-air) updates initiated by the pharmacy whenever updates are available.
