

Optional Accessory

NexsysADC™ 4T Storage Cabinet

Your NexsysADC 4T is compact, only requiring 26”d x 24”w of free space to secure the unit to the countertop with the provided security bracket. If you lack the devoted space in your medication room or designated space, Capsa Healthcare offers an optional storage cabinet that meets weight and performance specifications to safely hold the NexsysADC 4T cabinet (approximately 100 lbs. empty).

Storage Cabinet Specifications

- 23”d x 25 1/8”w x 34 1/2”h
- Two shelves
- Max capacity 400 lbs.
- Two locking casters
- Locking cabinet door
- Black powder coat 20 gauge steel
- White laminate top work surface
- Cable management holes
- 84 lbs.
- Simple assembly, requires Phillips screwdriver and 13mm and 19mm socket wrench (additional cost for assembled cabinet)

Shown assembled with NexsysADC security plate installed
