

# Inventory Management Kirby Lester

Consider how you manage your physical inventory count, especially narcotics. Hand-counting or half bottle / full bottle estimations put your inventory integrity at risk. Capsa Healthcare provides Kirby Lester pharmacy automation to yield tighter inventory control.

## The Kirby Lester Difference

- Maintain absolute inventory accuracy (manual counting methods are 95% accurate at best)
- Mandate narcotics double-counts
- 14.3 seconds faster (average) than hand-counting for a 90-count
- Counting speed up to 15/second

## Multiple Applications

- Narcotics inventory
- Perpetual inventory software
- Automated packaging device: cassette/cell inventory
- Returns and expired medication inventory tracking
- Retail pharmacy operation, for daily Rx filling

### Simple Inventory Counting: KL1

14.6"(h) 12.5"(d) 5.6"  
(weight) 6.9 lb

### Scan-Verification & Recording: KL1Plus

14.6"(h) 12.5"(d) 8"  
(weight) 9.6 lb

## Simple Inventory Counting: KL1

Count almost any tablet or capsule accurately & quickly.

Eliminate inaccurate, inefficient manual counting.

## Scan-Verification & Recording: KL1Plus

Scan the stock bottle, then count.

Keep a record of what was counted (export as .csv).
